Product Inspiration for the Technology Lifestyle

Sanus Systems' VisionMount® VLT15

Dear Electronic House reader,

Electronic House would like to introduce you to [Sanus Systems' VisionMount® VLT15 Super Slim Tilting Mount](#).

Sanus' Super Slim VLT15 accentuates the look of today's thinnest LCD, plasma and LED TVs by mounting them just .82" from the wall.

In addition to its ultra-thin design, the VLT15 features revolutionary Adjustable VirtualAxis™ tilting technology, making it the only mount in the industry that accommodates all types of flat-panel TVs with varying depths and allows up to 10 degrees of tilt so it's easy to find the perfect viewing angle.

The VLT15 is also incredibly easy to install and use with a number of innovative features, including post-installation height and level adjustments and easy access to cables behind the TV.

[Learn more about the VLT15 today!](#)

Thank you,
The Electronic House Team
