BOSE SOUND. NOW USING THE POWER OF YOUR VOICE.

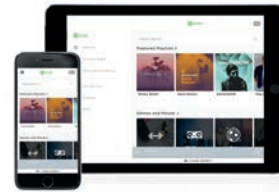

The new Bose family of smart speakers and soundbars delivers superior Bose sound. Built-in voice control from Amazon Alexa puts millions of songs, playlists, and more at the tip of your tongue. And with Wi-Fi® and Bluetooth® compatibility, you can wirelessly stream whatever you want, however you want. Plus, future software updates will add new features — like Apple AirPlay 2, coming soon.

SIMPLE CONTROL. HARD TO STOP LISTENING.

Take total control of your listening experience with the Bose Music app. The app makes it easy to control one or many of the new Bose family of smart speakers and soundbars. Browse popular music services, or listen to podcasts, music, and more on Internet radio powered by TuneIn. The app makes it simple to set presets so the music you love is just one touch away.

LISTEN THROUGHOUT YOUR HOME. EASILY.

Want more music in more rooms? The new Bose family of smart speakers and soundbars works together.

So while listening to music in the kitchen, the living room is entertaining guests with another song. Want to play the same song throughout the entire house? No problem. The speakers can do that, too.

BOSE SOUNDBAR 700.

No soundbar gives you more — the Bose Soundbar 700 is slim, stylish, and mighty. It's packed with technologies that bring thrilling depth, detail, and emotion to your favorite entertainment. With Amazon Alexa built in, just ask to play your songs, playlists, and music services. And if you want the total 5.1 cinematic experience, you can add the optional Bose Bass Module 700 or Bass Module 500, and Bose Surround Speakers anytime for thunderous bass and full-on surround sound. Plus, software updates will add new features — like Apple Airplay 2, coming soon.

BOSE SOUNDBAR 500.

As stylish as it is, the Bose Soundbar 500 is meant to be heard, not seen. Its thin profile fits discreetly under the TV screen, while its powerful acoustics fill the room with sound. And with Amazon Alexa built in, you can ask Alexa to play all your favorite music. Plus, software updates will add new features — like Apple Airplay 2, coming soon. Add the Bose Bass Module 500 or Bass Module 700 and Bose Surround Speakers anytime to kick things up a notch.

BOSE BASS MODULE 700.

The difference between hearing bass and feeling thunder starts the moment you add this wireless bass module to the Bose Soundbar 700 or Soundbar 500. QuietPort technology eliminates distortion and a highly advanced DSP delivers surprisingly deep and clean sound from something so small.

BOSE BASS MODULE 500.

Who says you need a big box for big bass? Amp up your sound experience by adding this wireless bass module to the Bose Soundbar 500 or Soundbar 700. It's thunderous bass in a compact size.

BOSE SURROUND SPEAKERS.

These small speakers take spacious sound to a whole new level. Add them to the Bose Soundbar 700 or Soundbar 500 and feel what it's like to be in the middle of what you listen to or watch.

BOSE HOME SPEAKER 500.

The Bose Home Speaker 500 delivers the widest sound of any smart speaker. Built-in voice control from Alexa puts songs, playlists, and more at the tip of your tongue. And you have the freedom to control the music your way — with your voice, with a tap on the top controls, or with the app. Plus, future software updates will add new features — like Apple AirPlay 2, coming soon.
